Application 09/032,083

ORDER RETURNING UNDOCKETED APPEAL TO EXAMINER

This application was electronically received at the Board of Patent Appeals and Interferences on May 29, 2007. A review of the application has revealed that the application is not ready for docketing as an appeal. Accordingly, the application is herewith being returned to the examiner. The matter requiring attention prior to docketing is identified below.

The Appeal Brief filed November 16, 2005, is defective because the Summary of Claimed Subject Matter does not map the claimed invention to the independent claims as set forth in 37 CFR § 41/37 (c)(1)(v) which states:

(v) Summary of claimed subject matter. A concise explanation of the subject matter defined in each of the independent claims involved in the appeal, which shall refer to the specification by page and line number, and to the drawing, if any, by reference characters. For each independent claim involved in the appeal and for each dependent claim argued separately under the provisions of paragraph (c)(1)(vii) of this section, every means plus function and step plus function as permitted by 35 U.S.C. 112, sixth paragraph, must be identified and

the structure, material, or acts described in the specification as corresponding to each claimed function must be set forth with reference to the specification by page and line number, and to the drawing, if any, by reference characters.

There is no delineation as to where separately independent claims, 1, 16, 21, 36, 41, 51, 56, 66, 71, 76, 81, 87, 89, 91, and 99 are mapped to the specification, by page and line number.

Correction is required. MPEP § 1205.03 states:

When the Office holds the brief to be defective solely due to appellant's failure to provide a summary of the claimed subject matter as required by 37 CFR 41.37(c)(1)(v), an entire new brief need not, and should not, be filed. Rather, a paper providing a summary of the claimed subject matter as required by 37 CFR 41.37(c)(1)(v) will suffice. Failure to timely respond to the Office's requirement will result in dismissal of the appeal. See MPEP § 1215.04 and §711.02(b).

Application 09/032,083

Accordingly, it is ORDERED that the application is returned to the Examiner to:

- 1) hold the Appeal Brief filed on November 16, 2005, defective;
- 2) notify appellants to file a paper providing a summary of the claimed subject matter as required by 37 CFR 41.37(c)(1)(v);
- 3) consider the paper providing a summary of the claimed subject matter as required by 37 CFR 41.37(c)(1)(v), and;
- 4) for such further action as may be appropriate.
